

This Finder is a Keeper: 1,001-Use Video Borescopes & Inspection Cameras

Finally, tools to help you get into impossible-to-reach spots and capture photos or video. Use a versatile borescope everyday on a range of projects around the house, on the job, in the garage, and more. Extech's comprehensive family of video borescope and inspection cameras helps you look into sink drains and pipes, inside concealed spots like walls and cylinder shafts, and behind fixed items like furnaces and car engines.

Find these features on all Extech models:

- 1m (39") waterproof & flexible gooseneck probes help you "get into trouble"
- Narrow diameter camera heads mean better access and less invasive drilling
- Convenient snap-on mirror, hook and magnet accessories let you look around and retrieve lost or hard-to-reach items (except BR50)
- Adjustable LEDs puts light where it's needed while minimizing glare
- Large color LCD screens clearly show hidden problems

Video Borescopes

Get on the spot inspections with models that feature a 2.4" screen & 17mm camera

BR50 Compact Borescope & CCTV Tester

Use the Video Input to test security camera image quality

BR80 Video Borescope

Flashlight-style design and handy image flip function

BR100 Video Borescope

Pistol-grip design with Video Output for remote viewing & recording on external TVs, DVRs, etc.

Video Borescope Inspection Cameras

Expand your inspection capabilities with photo & video capture

BR200/BR250 Wireless Video Borescopes/Cameras

Use Extech's BR200 & BR250 to inspect more and use the digital camera function to capture up to 2GB of JPEG images and videos on an easy-to-transfer SD card. Now, it's easier than ever to:

- Track your project's progress with before, during and after images & video
- Document your findings to show your customers
- For customers, check the quality of contractor work

Upgraded Capabilities: Both models feature a larger 3.5" display with a choice of 17mm camera (BR200) or a narrower 9mm camera (BR250).

Go Wireless: Hold the wireless, detachable display in your hand while positioning the probe as needed. No matter how awkward the angle, you can always see your display.

Take it with You: Inspect dangerous equipment or hazardous locations up to 30' with the wireless display.

The Big Picture: BR200 & BR250 models also include a Video Output for viewing images or video on a larger monitor or TV—useful for showing customers what you found.

Make it Your Own: Extech Accessories and Upgrades

Extech leads the market with accessories to expand and upgrade the capabilities of your borescope:

Probe Extensions

Extended your probe up to a 3m length using 1m add-on extensions (except BR50)

Longer Probes

For added waterproof depth, users can also opt for 2m and 5m long probes (for BR100, BR200, BR250)

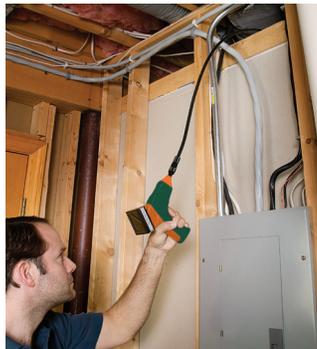

Ultra-Compact Cameras

Now, users can upgrade to narrower 4.5mm and 5.5mm camera probes - sizes previously only available on high-end systems costing hundreds or thousands of dollars (for BR100, BR200, BR250)

Stream Video Online

Turn your BR200/BR250 into a borescope webcam. The BRD10 wireless USB video receiver connects to your PC so you can stream video using services like Skype & UStream to remote customers or trainees.

USE YOUR EXTECH BORESCOPE EVERYWHERE

HOME & ON THE JOB:

- HVAC ducts
- Furnace heat exchangers
- Behind appliances
- Wiring inside walls
- Drains
- Rot, mold, water damage
- Plumbing
- Attic and eaves
